Working Genetics for
Join us for a Complimentary Lunch on Sale Day!

Welcome to the 13th Annual North Country Ranchlands Bull Sale. Crystal Springs Ranch and Rosefield Simmentals, along with the Transcon team, invite you to join us Monday, March 16th at the VJV Sales Facility in Dawson Creek.

Crystal Springs Ranch and Rosefield Simmentals are long-established and highly respected Simmental breeders in the Northern Peace County, supported by proud, family-run operations based in Northern British Columbia. Both families operate large-scale commercial cow-calf herds and possess a deep understanding of what it takes to produce cattle that consistently perform in the Peace Country's rugged and demanding environment. Their programs are built around functionality, longevity, and practical performance—traits essential for cattle expected to work and last in northern conditions.

By combining proven cow families with carefully selected, proven genetics, these programs remove much of the guesswork from herd sire selection. Every bull in the offering is the result of extensive research, performance evaluation, and a disciplined commitment to genetic advancement. Bulls are developed responsibly and at a moderate pace, with strong emphasis placed on structural soundness, durability, and longevity to ensure years of dependable service.

With today's strong cattle markets, the importance of selecting the right herd sire has never been greater. This year's offering includes a versatile and well-balanced selection of red, black, fullblood, and traditional purebred Simmental bulls designed to meet a wide range of management styles and production goals. Whether your focus is calving ease, added performance, or enhanced maternal strength, this sale offers bulls capable of moving your program forward.

The North Country Ranchlands Bull Sale brings together two proven breeding programs offering high-quality, performance-driven bulls specifically suited for Northern cattle producers. We encourage you to take advantage of this opportunity to invest in genetics that will add long-term value, efficiency, and profitability to your operation.

Join us on March 16th to find your next herd sire—genetics built for the North and proven where it matters most.

If you are unable to attend on sale day, the Transcon team is available to assist with information on the offering and conflict-free absentee bidding. Please feel free to contact any member of our team—we are committed to making your bull-buying experience straightforward, informed, and successful.

the Working Ranch!

The Wiebe family at Rosefield Simmentals would like to welcome you to our 13th Annual North Country Ranchland Bull and Heifer Sale. We are happy to be working alongside Crystal Springs Ranch and having Transcon Livestock as our sales and marketing team.

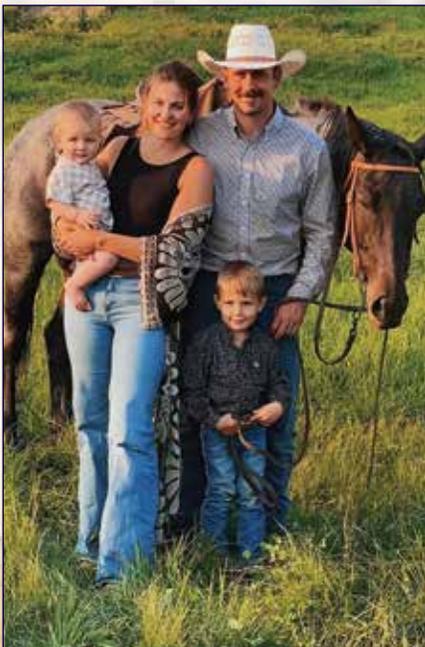

We are excited to present our hand picked selection of bulls and heifers for this year's sale and we thank you for considering us for your breeding needs. At Rosefield Simmentals our goal is to raise bulls of superior quality, ones that not only meet, but exceed the needs of our buyers. Each bull in this catalogue has been carefully selected for its exceptional genetics, performance, and conformation. Our breeding program is built on years of experience, using industry leading genetics to produce bulls that deliver results. Whether you are looking to improve growth rates, genetics or overall performance, we are confident that our bulls will meet your needs and deliver value for your operation.

The heifers that we have selected for this sale are a powerful group of females with good udders, good feet, and are easy to work with. We feel they will be very productive females and will make a great addition to a Simmental herd.

Please contact the Transcon Team or ourselves for more information on the bulls or heifers or the potential purchases of the same. Thank you for trusting us to provide you with great cattle genetics. We look forward to seeing you at the sale and helping you select the right bulls or heifers for your operation.

FULL FLECKVIEH

This JNR Kozmo sired bull is out of a very impressive cow family. His Dam is sired by South Seven Adonis, his Grand Dam was sired by Gidsco Appollo 3F: these bloodlines, combined with JNR Kozmo have resulted in a really productive herd sire in the making. His Dam and Grand Dam both have very correct udders. Nevaro is loaded with performance pedigrees on all sides and should develop into a beautiful, very well productive herd sire.

JNR Kozmo was purchased from JNR Farms on their 2023 Bull Sale. He is a very heavily muscled bull, who is definitely passing this trait on to his offspring. We noticed at weaning time that his calves, both bulls and heifers, stood out because of their natural thickness. The Kozmo sired bull calves will be very easy to pick out on sale day, as they are possibly the heaviest muscled bulls we have produced to date. In our sale we are also offering a full blood female sired by Kozmo, we are excited to offer her as our lead of open heifer in the sale.

FULL FLECKVIEH

This is our 2nd set of JNR Kozmo sired bull calves on offer and again we are very pleased by the natural fleshing, gain and disposition of his offspring, both in his bull calves and his heifer calves. 709N is out of a heavy milking Sibelle Vicking female who raised our high selling female at our sale 2 years ago. Nolan is very long bodied, dark red with loads of muscle, a bull that we feel should find his way to a registered herd.

Nobble is a very good reflection of his sire JNR Kozmo; he shows the good square feet and heavy muscling, with the same quit disposition as his sire. His Dam is a dark red goggle-eyed cow with a supper temperament and a good tight udder. Nobble is a polled fullblood bull with lots of performance and a very modest birth weight.

This bull caught my attention when he was only a couple of weeks old. At that age he already showed signs of being a strong candidate for the bull pen and here he is featured today. Norman is a truly impressive JNR Kozmo son with a lot of muscle definition and a good disposition. He is out of a BEE Barrage sired Dam who has a picture-perfect udder and produces plenty of milk. This bull should produce a strong set of steers and highly maternal females.

FULL FLECKVIEH

Nixon comes with a smaller birthweight and is a very well put together JNR Kozmo son. His Dam is another BEE Barrage daughter, also going back in her pedigree to Anchor D Viper. There is a long list of great Fleckvieh genetics in his DNA. BEE Barrage left us with a set of females with really strong maternal traits, such as really well-developed udders and an abundant supply of milk.

FULL FLECKVIEH

Nevada is the 2nd youngest bull in the pen this year, he is built very similar to all the other Kozmo sons. Nevada's Dam was sired by Wolfe Atomic 616A "Sting" as we call him. He was one of the best cow maker bulls we have owned. We still have several 10-year-old cows in the herd sired by "Sting", to this day they are still some of my favorite cows in the herd. There is a good combination of strong fullblood genetics in this bull's pedigree.

This bulls Dam is one of our many cows from a bull that we called "Sting," Wolfe Atomic 616A. I have said for years now that our "Sting" females are the best cows we have ever produced on the ranch. Nike is out of a nine-year-old cow who is pretty much flawless; she has good feet, good udder, a very good temperament, and produces an exceptional calf every year. Here is a bull that I feel will add pounds to his calves and his female should have many excellent qualities.

Norbert is a very well put together BLL Big Energy son with a lot of style and eye appeal. His Dam is a big solid built cow with a picture-perfect udder. This cow produces a very good calf every year. Two years ago, she produced a very powerful bull that sold to G and S Cattle from Ponoka, Alberta. This bull has a higher birth weight but is a really smooth built bull with a polled head, he should not be hard calving at all in my opinion.

FULL FLECKVIEH

Nimble is the youngest bull in our string this year. He is sired by BLL Big Energy. He has a lot of depth and muscle. His Dam JPW 903G raised our high selling yearling heifer calf which sold on last years sale to Starwest Simmentals. Come sale day in mid-March this guy will fit right in with his pen mates. There is a very powerful cow behind this bull and with his sire going back to Electric Avenue I think we have a real herd sire prospect in the making here.

Norwood is a unique bull whose sire Masterloc Armagedon 8J was born in 1999, 27 years ago! We purchased a few straws many years ago and used it to artificially inseminate Norwood's Dam and this resulted in this very impressive, smooth polled bull. Norwood is a very heavily muscled long spined, very attractive looking bull with a very powerful cow family behind him. This is truly a very rare makeup of some very old proven Fleckvieh genetics. Come check this bull out sale day, chances are he won't be related to anything in your cow herd.

FULL FLECKVIEH

Miller is AI sired by an Imax bull, who is a well proven heifer bull, whom we have used successfully in the heifer pen for years. Out of all our bulls in the pen, this is the top one that I would recommend to use on heifers. Miller is fine boned and very smooth in the shoulders. This bull is colored right, is polled, and should be safe to use in the heifer pen.

Nester is an AI sired bull by Anchor D Imax 250Y and is bred for calving ease. His Dam is an Epic daughter; Epic was also a good calving ease sire. Nester is out of a first calf heifer and weaned off at 935 pounds. By mid January this bull weighed over 1200 pounds, so I think its safe to say we have a calving ease bull here with some impressive performance!

Locksley was purchased from Anchor D Simmentals a few years ago, and has added some great genetics to our herd. He is now a coming 3 year old herd bull who has developed into a really long spined bull with good bone structure and has a good disposition. There are two bulls and one open heifer in this year's sale out of Locksley. Our 2026 Locksley calves are hitting the ground now and are looking very good. One of the highest gaining bulls in our sale is a Locksley son who gained 4.5 pounds per day from weaning to mid January.

Nibbs is sired by Anchor D Locksley 309L, a new herd bull we purchased two years from Anchor D Simmentals. Nibbs is out of a big broody female with plenty of milk, who's sired by Lone Stone Envoy 165D. This bull weaned off at 850 pounds and we were very impressed to see that he gained 4.5 pounds per day from weaning till mid January, making him the highest gaining bull in the entire bull pen. I feel this bull will sire a group of calves that will really push the scale down come sale time!

Nicklas is an AI son out of Double Bar D Haldor 8J; we have used this sire for years already with really good results. His Dam has a very correct udder, lots of milk, and good feet. Nicklas comes with a very modest birth weight and is polled. He has a little more white paint on him than we are used to, but color aside, this is a very well-built bull with as much muscle mass as any bull in the pen. I feel he should calve easy and put on pounds!

Windy Willow Nexous is a polled black bull sired by Big Kobra 70K, his Dam is a very deep bodied, heavily muscled Mairheads Brocker 221Z daughter with lots of milk. This black cow is one of the deepest bodied cows on our ranch here. Nexous has a little more birth weight but because of his length and his Dams mass, this bull should work well. Nexous has multi generations of black on both side of his pedigree.

FULL FLECKVIEH

Natalie is a very fancy polled fullblood heifer out of JNR Kozmo 2104K. She is out of a 14 year old cow that has certainly proven its longevity. JPW 309Z goes back to the sire Arnolds Image, who was a well-known calving ease bull in his time. Natalie is a very well balanced, long spined heifer with lots of thickness and good eye appeal. This cow has raised a lot of calves for us but this the best one yet. She will make a great full blood cow who hopefully goes on to produce as many calves as her mamma has, and still is to this day.

32

**COMMERCIAL HEIFERS
GROUP OF 3 RED**

We would like to welcome you all to our 13th Annual North Country Ranchland Bull Sale. It's hard to believe that we are already in our 13th year of our North Country Ranchland bull sale!

Once again, a huge thank you to all of you who have supported us over the past 12 years by purchasing, bidding, and showing interest and support in our sale!

This year was another year we have truly felt God's blessings for our family and our ranch and a fun year to be in the cattle industry!

With market levels at record highs and the North American Cattle herd at its lowest number in years the cattle industry is bursting with optimism.

Summer 2025 was also the end to 5 years of drought for us with us being blessed with almost twice the feed required to feed our cow herd for the winter. It has been a great feeling not counting bales and calculating silage to see if there is enough to feed the herd for the winter!

For Sarah and I it has been fun watching our kids grow up, seeing them continually get more involved in the ranch and cattle.

This year's group of bulls is probably the most diverse and strongest set of bulls we have had the privilege of offering to our customers. There is a large variety of sire options from our walking sires to a variety of AI sires. There is a great mix of both power bulls and calving ease bulls.

Take a look, you won't be disappointed! Our bulls are continually raised in ranch like conditions.

We start calving in January and the cows spend most of the summer on crown grazing land. Our bulls are not creep fed and fed a modest silage ration after weaning.

Our focus is to continually provide our customers with sound bulls that will work hard and last. We know that buying your next herd bull is a serious investment.

Our goal is not just to sell you one bull one time, but we want to build a long-term relationship of trust with you, our customers.

We stand behind our bulls so if you are dissatisfied, we would like to know what we can do for you!

If you are ever in the area, stop in, the coffee is always on! We look forward to seeing you at our 2026 sale!

Dynamic is a fancy made up, very long bodied powerhouse. He is one on my personal favorites in the pen and is a unique combination of both performance and calving ease, weaning at over 1000 lbs but having a birthweight of only 72lbs! Take note of his pedigree, it is stacked with calving ease legends such as Champs Bravo, FGAF Barbossa, and ABR Sir Arnolds Image. His Dam is also one of our best cow families with great udders and excellent feet. Take a strong look at Dynamic as he will have a very Dynamic effect on your calf crop!

Where do I start...Destroyer is another of the top standouts in the pen! He is a very fancy made up long bodied thick black Baldy bull. He weaned at over 1000 lbs; weighing in at 1400 lbs as a yearling. His Dam goes back to Razzmatazz; so excellent maternal here as well. If you are looking for a fancy black bull where the steers might destroy the scale with the pounds, then mark Destroyer high on your list.

Ranger is out top performing bull for this group! With a birth weight of 96 lbs and weaning at 1054lbs he is loaded with performance! He is also long bodied thickly made and loaded with great maternal characteristics as well. His Dam, a very quiet Earthquake daughter out of the same cow family as 92 N (Crystal Spring Destroyer 92N) so that cow family does all the talking for itself. Ranger would a great choice for an excellent set of steers but make sure you keep the daughters as well as they will make great cows.

Reliable is another Riddler son who, very much like the rest of his brothers is also a thickly made up, long bodied bull that comes with loads of power and performance, while still maintaining good calving ease. His Dam is another never fail cow that goes back to FGAF Guerro with an excellent udder and great feet. Reliable will add some good growth to your steers but make sure you keep some extra heifers back as they should be extra special.

Romeo is another of the Riddler sires bull in this year's group. He fell behind in his weaning weight to his brothers due to losing his cow in August and being on pasture without a mother for the last 6 weeks before weaning. Despite being orphaned he still weaned at over 800 lbs and is quickly catching up with his brothers throughout the winter. His Dam was no stranger to weaning off excellent bulls for the bull pen.

Stamp is also the result of an AI service to Riddler. He is a thickly made-up bull whose dam is a FGAF Gurreo daughter with an excellent udder and excellent feet. She has weaned off many good bulls and some great heifers for the replacement pen as well. Stamp should definitely leave his stamp on your calf crop and sire some great steers as well as some excellent females for the replacement pen.

Rival is a CLNO 155J son going back to the great Reputation. He is a fancy, long bodied bull that comes with great thickness. He will still calve easy having a birthweight of 82 lbs but add some performance too as he weaned off at over 900 lb. His dam is a very maternal Cowboy Cut daughter. Rival would be a great choice for your young cows that still need a bit of calving ease but need to wean off some pounds as well.

Donald is a result of an AI service to Dimension. Like his other pen mates, he will definitely not disappoint! He is a long-bodied bull with lots of thickness but comes with the extra angle of calving ease as well. Combine all this with his birth weight of just 86lbs together with the fact that he is out of our "410" cow family who is one of our best cow families, always bringing in a great bull for the bull pen or excellent maternal females to add to the herd. No Guess work here!

Lava is also the result of AI service to Dimension. He is a larger framed bull who will add performance to your calves but still maintain calving ease through his 80lb birthweight. His Dam is HYS 330J a very maternal young cow who is a direct Hart State of War daughter cow who is fast making a strong name for herself in our herd. Lava would be a great choice for some younger cows to add some calving ease but still not give up performance.

Prospector is another personal favorite of mine. He is a result of an AI service to the old calving ease specialist Beef Maker. He is very smoothly put together with great eye appeal. He weaned off at over 900 lbs off a first calve heifer but comes with a birth weight of only 72 lbs. His pedigree from his Dam side is also stacked with calving ease with both State of War and Kuntz Sheff. Prospector would be a great choice for trouble free calving on young cows but could also work on heifers.

Neil is a bull with limitless potential! Another bull I score very high. He is a very thick, long bodied, polled bull with both calving ease and still has great performance. Take Note; his birthdate is Feb 20, making him the second youngest bull in the pen. He combines two calving ease pedigrees, ABR Sir Arnolds Image and Champs Bravo from the Dams side with Anchor D Karizma on the sire side to make a great all-around bull. He would work great on some young cows.

FULL FLECKVIEH. In 2024 we purchased some embryos from John Beechnior with the hopes of adding some more foundation females to our full blood herd. Amongst the embryos we purchased John gave us the opportunity to purchase two very special embryos from their Proven BEE 12S (She Devil) cow/ JNR Titanium. We were slightly disappointed when both embryos came out as bull calves rather than the females we were hoping for, but the disappointment soon left as we watched the pair of bull calves grow. After much consideration we have decided to retain one of these bulls for our own herd sire but decided to offer the second of these very special, unique calves in our bull sale. Looking for a herd bull!? Don't miss the opportunity to purchase one of these gems in our sale.

FULL FLECKVIEH

Nigel is a result of another Embryo we purchased from John Beechnior, in hopes of getting some more full blood females to add to the herd. Sadly, out of all the embryos we did that year we only ended up with one female, so we can offer you another bull out of the great Virginia Suzy, sired by Virginia Sawchuck. Nigel is a vey quiet bull who should work good to sire a great set of steers, but also to get some excellent females for the replacement pen.

FULL FLECKVIEH

Explosion is a slightly larger framed, larger boned, Karizma son, loaded with performance. He, like all the other Karizma sons, has lots of thickness, length, and lots of performance. Take note of his birthdate; he is a Feb 12 calf, but he stands side by side with the calves that are a month older than him. His Dam is an EDO daughter we purchased. Explosion should work great on some larger cows both for an excellent set of steers, but also some great replacements.

Nero is another very solid choice for a fleck bull to use on cows to ensure calving ease but with a little more jam to him. He comes from a rock-solid cow family, so you can buy with confidence. He should work great to add pounds to your steers, but also sire many great heifers for the replacement pen. No guess work here, Nero is a very solid choice.

Neriah is a quiet, very thick bull, with lots of length, another one of my favourites. His sire is BEE 608L going back to Sibelle Sugar Ray. His dam is a picture-perfect Anchor D Earthquake daughter, who I am very excited to see what else she can do going forward. With only an 84 lb birthweight, there is a great mix of both performance but still some caving ease here. Herd bull Time!

Rocket is a bull that has limitless potential! Another bull I score very high. He is a very thick, long bodied bull with both calving ease, yet great performance. He is the first calf out of a very maternal first calver weighing 84 lbs at birth but weaning at 822lbs. He also combines two calving ease pedigrees into an interesting package with Garren Nivaro on the dam side and Black Gold Battle Cry on the sire side. He would work great on some young cows and possibly on some heifers.

Discovery is a very deep bodied polled bull that is another personal favorite of mine. His Dam is a first calve heifer going back to Black Gold Reputation 155J, who did a great job with her first calve, weaning Discovery off at over 850lbs. Discovery has a great combination of calving ease and performance. If you are looking to buy a bull with confidence, don't look past this "Discovery".

Mossberg was raised by an exceptional young first calver. His sire Virginia Ranier we have used for 2 years now on our heifers with good success. He is a smoothly put together bull with good thickness and width over the top. He has a birthweight of 85 lbs so I think he would work great on a group of second calvers.

Relax was also raised by an exceptional young first calver sired by FGAF Guerrero. His sire Black Gold Battle Cry we have used for 5 years now on our heifers. He is smoothly put together and should work great on a set of heifers. With a birthweight of 75 lbs you should be able to "relax" with Relax in you heifer pen.

Investment is a lighter boned, more smooth fronted bull. His Dam, a first calf heifer weaned him off at over 850 lbs. Not bad for a first calve heifer. She is a direct daughter of Anchor D Yeti. The Yeti females we have are excellent maternal cows that seem to have lots of milk and performance. Investment should work great on some young cows or maybe to try on some heifers to calve easy but still maintain performance.

Reliable is another smooth, clean fronted, Black Gold Battle Cry 67J son that should work great on a group of heifers or young cows. On the dam side he goes back to FGAF Barbossa filling his pedigree with calving ease. He comes with an 80 lb birth weight. Reliable should calve easy while still maintaining good performance and add excellent maternal characteristics to his heifer calves.

Together is a beautiful place to be!

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS – There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/ producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
